

LED TROFFER LIGHTS

FEATURES

- ◆ Designed with 28 years of R&D Experience in LED applications.
- ◆ Energy efficient, consumes around 50% of the power as compared to CFL lights for same lumen output.
- ◆ Glare free, uniform illumination with longer life and less maintenance.
- ◆ Designed to operate in Indian environmental conditions with temperature raise below 15°C, ensuring stable light output without depreciation.
- ◆ Immune to input AC line fluctuations and surges.
- ◆ Optics and diffusers are UV stabilized, preventing change in color with time.
